

**DEFEATING LUNG CANCER  
SHARING THE EXPERIENCE  
LUNG CANCER EUROPEAN MEETING (LUCE-M)**

**CHAIRMAN**

**Diego Luigi Cortinovis**  
Medical Oncologist, San Gerardo Hospital, Monza, Italy

**FACULTY**

**Claudia M. R. Bareggi:** Medical Oncology Unit, Fondazione IRCCS Cà Granda Ospedale Maggiore Policlinico, Milan, Italy

**Anna Bettini:** Medical Oncology Unit, Ospedale Papa Giovanni XXIII, Bergamo

**Paolo Bidoli:** S.C. Medical Oncology Unit, ASST di Monza

**Giulio Cerea:** Oncology Unit, ASST Grande Ospedale Metropolitano Niguarda, Milan

**Jesus Corral Jaime:** Medical Oncology Department,  
Hospital Universitario Virgen del Rocío, Seville, Spain

**Nicolas Dickgreber:** Klinik für Pneumologie, Thoraxonkologie  
und Beatmungsmedizin Mathias-Spital, Rheine, Germany

**Marina Garassino:** Thoracic medical oncology,  
Istituto Nazionale dei Tumori, Milan, Italy

**Matteo Gajj Levrà:** Unité d'Oncologie et Oncologie Thoracique,  
Centre hospitalo-universitaire de Grenoble - Hôpital Michallon

**Nicolas Girard:** Respiratory Medicine Service, Hôpital Louis Pradel,  
Hospices Civils de Lyon, France Service de Pneumologie, Centre national  
de référence des maladies pulmonaires rares, Centre expert national  
associé du réseau RYTHMIC Tumeurs Thymiques et Cancer

**Vanessa Gregorc:** Thoracic Oncology and Melanoma Area Coordinator,  
Department of Oncology IRCCS Scientific Institute  
Ospedale San Raffaele (University Hospital), Milan, Italy

**Niki Karachaliou:** Translational Research Group in Pangaea Biotech SA, Barcelona

**Antonio Passaro:** Division of Thoracic Oncology, European Institute of Oncology, IEO, Milan, Italy

**Patrick Pauwels:** Clinic of pathological anatomy, UZA Antwerp University Hospital, Edegem, Belgium

**Christian Rolfo:** Clinical Trial Management Program Oncology Department University Hospital Antwerp UZA, Edegem, Belgium

**Luca Toschi:** Humanitas Cancer Center, IRCCS U.O. di Oncologia ed Ematologia, Milan, Italy

**Ania Wrona:** Department of Oncology and Radiotherapy - Medical University of Gdansk, Poland

LUNG CANCER EUROPEAN MEETING (LUCE-M)

## SCIENTIFIC RATIONALE

The therapeutic pathways in managing non-small cell lung cancer are now extremely complex and articulated and start from a basic biomolecular evaluation. This evaluation aims to provide the clinician with the tools needed for precision medicine.

Through these determinations, a therapeutic strategy can be developed that is different for each tumor subtype, but that makes the concept of chronic neoplastic lung disease ever more within reach.

Targeted therapies, immunotherapies and antiangiogenic therapies become valuable allies in the fight against this type of cancer. The availability and applicability in clinical practice can create long-term survivors following this diagnosis.

These aspects are further corroborated by the clinical research and networks. The international collaboration between clinicians and investment in biomolecular platforms are the key to truly effective and powerful research needed to ensure optimal targeted therapy for each tumor.

## AGENDA

10.00	Welcome and Introduction	Diego Cortinovis
	<b>First session: the breakthroughs in clinical practice</b>	Diego Cortinovis, Luca Toschi
10.15	Second line perspectives in nsq-NSCLC: Is it a real second chance for patients?	Nicolas Dickgreber
10.45	The corner discussion: panelists	All
11.00	Releasing the brakes of the immune system: what is the impact of pd1/pd1 abs in clinical practice?	Jesus Corral Jaime
11.30	The corner discussion: panelists	All
11.45	SCC management in 2016: what is the gap between trials and clinical practice?	Nicolas Girard
12.15	Discussion corner: panelists	All
12.30	Critical aspects: i have just ten minutes	Marina Garassino
12.40	Lunch break	
	<b>Second session: special populations</b>	Giulio Cerea, Claudia M.R. Bareggi Christian Rolfo
13.40	EGFR MUT+VE PTS: we don't miss any opportunity	All
14.00	Discussion corner: panelists	All
14.10	ALK +VE: we don't miss any opportunity	Patrick Pauwels
14.20	Discussion corner: panelists	All
14.30	The "other" OMA's: practical management at a glance	Niki Karachaliou
14.50	Discussion corner: panelists	All
15.00	Critical aspects: i have just ten minutes.....	Paolo Bidoli
15.10	Coffee break	
	<b>Third session: the wind blows throughout Europe</b>	Anna Bettini, Antonio Passaro Intl. Speaker
15.30	The opportunity to care for lung cancer patients in Europe: not only chemotherapy	Matteo Giaj Levra
16.00	How Europe may contribute to clinical research on lung cancer? (networking and biobanking) EORTC?	
16.30	Access to therapies in lung cancer: is there more than "one Europe"?	Ania Wrona
17.10	I have just ten minutes.....	Vanesa Gregorc
17.10	Closing Remarks	Diego Cortinovis
